

**BALKAN  
RESEARCH CENTER**

**INTERNATIONAL  
BALKAN  
UNIVERSITY**

The **Balkan Research Center (BRC)** is a research center established in 2024, with the aim of conducting research which will have a profound impact on policy-making, economic development and cultural issues, among others.

BRC aims to be a significant platform for innovation and contemporary research with inclusivity for academicians and volunteers. Planned events and projects of BRC include Panel discussions, research projects and academic journal publications with lasting impacts on academic and decision-making circles, as well as the general community in North Macedonia and throughout the Balkans.

The goal of the **Balkan Research Center** is to provide objective, well-researched analyses in order to help academic entities and public entities, as well as other stakeholders, make informed decisions and formulate effective policies.

Balkan Research Center conducts its research activities with experts in their respective fields as well as young researchers through its research entities, specializing in specific fields.

## **Political, Social and Legal Studies**

The Political, Social and Legal Studies within the Balkan Research Center aims to raise awareness of strategically important issues and the dynamics of development of political, legal, social and educational phenomena in the Balkan countries, to research them, to develop models for their development and fit them into appropriate policies.

## **Economic Development Studies**

Economic Development Studies at the Balkan Research Center is dedicated to exploring the multifaceted challenges and opportunities surrounding economic development in the Balkan region.

## **Language and Cultural Studies**

Language and Cultural Studies in the Balkan Research Center will be researching, documenting, and preserving the diverse languages spoken across the Balkan region and analyzing the influence of the English language on them.

Message from the Director of the Balkan Research Center:

Balkan Research Center aims to be a research and public policy center that conducts research to inform, report and influence academic entities and public policy decision making institutions. Our goal is to provide objective, well-researched analyses in order to help the academic entities for a higher academic development, and public entities as well as other stakeholders in order to make informed decisions **and formulate effective policies.**

Our center aims to play a crucial role in academic research and findings as well as making public policy analysis and addressing societal challenges and be a well-known Research and Public Policy center in the Balkan region.

Our mission is to conduct academic research and analysis, providing evidence-based insights that can produce effective public policies and improve societies in the Balkan region.

Our vision is to be a leading academic and public policy research platform in the Balkan region while changing Balkan societies via academic achievements, public awareness, collaboration, address pressing challenges, and promote a just and sustainable future.

Assoc. Prof. Dr. Mevludin Ibish
